**Honorable University Presidents, Dear Professors, Dear Students,
Dear Ladies and Gentlemen, Dear Friends!**

**A Warm Welcome to our
FOR APAC International Austrian EU Summer School 2025!**

The Forum Asia Pacific (FOR APAC) continues the long Summer School tradition of the former Chinese Studies Center at the Paris Lodron University of Salzburg (PLUS), which, together with the Eurasia-Pacific Uninet (EPU), has initiated its Chinese-Austrian-EU Summer School for students from higher education institutions from China in 2002.

Three years ago, the former Chinese Studies Center was transformed into the Forum Asia Pacific to include more countries from the Asia-Pacific region and strengthen scientific aspects of teaching and research projects in this field.

During the two Covid-years from 2021 to 2022, we held ONLINE Summer Schools, which were well received by students from our Chinese partner universities, and other institutions in China and other countries. In 2023, we were finally able to hold an on-site summer school again, with students from all across the world.

This year, we will hold our Summer School –called “FOR APAC INTERNATIONAL AUSTRIAN EU SUMMER SCHOOL” on-place and hope to welcome many students not only from the Asia-Pacific region, but also beyond this region, in order to promote a broader exchange between students from different parts of the world.

We hope that we will attract many students from diverse countries to engage with important topics of our globalized world.

The FOR APAC INTERNATIONAL AUSTRIAN EU SUMMER SCHOOL 2025 offers a new program this year: This program will take place in Paris and Reims (France), Brussels and Leuven (Belgium), Heidelberg (Germany), Salzburg and Vienna (Austria) from July 12th to August 8th 2025.

During this Summer School, we will convey knowledge for a more profound understanding of Europe in various fields, European culture and ways of thinking from different perspectives and different worldviews, including philosophy, psychology, politics, economics, history, natural sciences, literature, music, arts, etc., but also explore specific outcomes of current research and very topical issues like climate change and intercultural communication, as well as provide analysis and reflections on those features and the current global situation.

For a more detailed insight into our lectures, please have a look at the attached program.

We sincerely hope that the new version of our Summer School in the frame of FOR APAC will awaken your interest and that of your students.

We are very much looking forward to welcoming your students to our exciting journey in Europe!

Sincerely yours,

Jussi GRIESSINGER

Scientific Director, Forum Asia Pacific, Paris Lodron University Salzburg, Austria

Judith C. SUCHANEK

Executive Director, Forum Asia Pacific, Paris Lodron University of Salzburg, Austria

Please note: Since all the lectures will be held in English, having a good proficiency of written and spoken English (B2) is a basic prerequisite for participation. Responsible contact persons from our member institutions should make sure that the English language abilities of the selected students are meeting this minimum requirement.
